

MAGIC KINGDOM

A JOURNEY THROUGH BRITISH HISTORY

For Students aged 12 -16 years old

19 - 29 JULY 2020

An Educo Adventure...

Join Educo for an adventure through time and discover Britains magical history. Students will travel across the South-West to discover the ruins of magical kingdoms and how England has developed over time. Students will begin their journey in pre-historic times searching for fossils and the first settlements of humans, before venturing onto King Arthur's Realm, the Romans and modern day Knights. An educational adventure not to be missed!

OVERVIEW:

The Group will be based in Bath.

This beautiful city provides the perfect background for our historical adventures. Students will get to enjoy the medieval history of the town and the remains of it's Roman ancestry.

From Bath we will take trips along the English coast and surrounding villages including Stonehenge.

Students will also enjoy a day-trip to London to see our modern United Kingdom.

Highlights

Cheddar Gorge & Caves

This intricate cave system is one of Britain's most spectacular landmarks. Cheddar Gorge holds many fascinating secrets about our prehistoric ancestors. Students will make their way through the cave system and visit the prehistoric museum to learn about the history of the caves and the people who used to live here.

Jurassic Coast

The Jurassic Coast is England's only natural UNESCO World Heritage Site where some of England's most notable fossil finds have been made. Students will travel to Lulworth Cove where they can take part in a fossil hunting adventure and see the famous Durdle Door before heading to the Corfe Castle ruins.

King Arthur's Realm

Students will discover the ancient legends of England by taking a trip through 'King Arthur's Realm'. We will travel to Glastonbury where King Arthur is said to be buried and the magical site of Glastonbury Tor. Students will also enjoy time at Nunney Castle and Wells Cathedral and take part in a range of English medieval activities.

A Day in London

At the end of the course students will be able to enjoy a day trip to London where we will discover the capital's Royal History and how the city has developed to modern day. Students will see the Houses of Parliament and Big Ben.

Drive by Buckingham Palace, and be marveled at the Tower of London, home to the Crown Jewels.

Students will finish the day with a journey to the London Eye to enjoy a birds-eye-view of the city before returning to Bath.
